

The Superintendent's Broadsheet

Revere Public Schools

Vol. 7 No. 16
May 10, 2018

Beachmont

This Wednesday, our kindergarten and third grade teams presented at the Revere student showcase. Teams of teachers and students displayed some of the fantastic work they have been doing in the area of project based learning. Both teams had an extreme weather focus. Their projects consisted of scientific research, writing about weather, learning about recent weather events, and engineering structures designed to withstand certain hazards. We are immensely proud of the tremendous work our students and teachers have done and the deep learning that has occurred.

Garfield

Staff and students are excited to showcase some of the work happening at GES at the RPS Showcase on May 9. A special thank you to Ms. Emma Lombard, Mrs. Vicky Brenckle, Ms. Ashleigh Karp, Mrs. Nancy DeFilippo, and Mrs. Adriana Tringale for presenting at this event. Students and families are welcome to join us for our Family Movie Afternoon on Thursday, May 10, at 3:00 pm in the auditorium. We will be showing the movie Ferdinand. Parents and guardians are encouraged to attend our next Garfield's Families Connect meeting on Thursday, May 17 at 8:30 am. The topics for this meeting include summer programming available for children and families, and bike/pedestrian safety.

Garfield Middle School

Congratulations to GMS 7th Graders Sabrina Indorato and Salma Khamis for winning a Frederick Douglass Bicentennial Award! Sabrina and Salma placed third in the Junior Individual Website category for their project, "Nelson Mandela: Standing Up for South African Rights." The Frederick Douglass Bicentennial Award, given on behalf of @MassHumanities, honors Massachusetts History Day projects that illuminate the life and legacy of Frederick Douglass and his work as an African-American social reformer, abolitionist, orator, writer, and statesman. Way to go, Sabrina and Salma!

Hill

We have another busy week at The Hill School. Some of our 4th and 5th graders will be presenting projects they have been working hard on at Revere High School on Wednesday night for the Student Showcase with other elementary schools. On Thursday we will be hosting our May food pantry, and look forward to seeing many school families and community members. On Friday, Curious Creatures will be visiting our 2nd graders and presenting their live animal program. The Curious Creatures staff of professional exhibitors teach respect and appreciation for exotic and unusual animals. The presentation will include interesting facts and stories about their creatures in an educational and entertaining environment.

Lincoln

The Lincoln teachers really enjoyed Teacher Appreciation Week. We started off having treats left for us in our teacher's room, handmade cards from our students, and two faculty luncheons. Special thanks to our students, families, Revere School Committee, and the Lincoln PTA for making this week so enjoyable.

Paul Revere

It's Teacher Appreciation Week! We recognize the hard work and dedication of our entire staff and thank them for all that they do throughout the entire school year to help our students be successful, learn and grow. We take time out this week to treat our wonderful teachers each day with a special lunch, snack or dessert to show them how much we appreciate the great jobs that they do. Thank you to our PTO and Revere School Committee for

contributing to our celebrations. Wednesday is also School Nurse Appreciation Day, and we thank Nurse Tish for all that she does to keep our students happy and healthy

Revere High School

Congratulations to Erin Cronin for being named the Hall at Patriot Place presented by the Raytheon Massachusetts STEM Teacher of the Year. Erin will be honored at the 2018 Massachusetts STEM Summit on November 14 at Worcester's DCU Center and Revere High School will receive \$5,000 to support STEM education. This is a well-deserved recognition and we are all proud of her! Thank you for believing in our students and making a difference in their lives!

Rumney Marsh Academy

The RMA would like to thank all educators and students that contributed their work to our district's MCIEA Showcase. We would specifically like to thank Chris Labbe, Jennifer O'Reilly, Annette Sandoval, and Jenna Thomas for volunteering to serve as presenters for the evening. From various classrooms across grade levels, the following performance based assessments were on display: My Cultural Narrative, Oppression Project: What Does it Mean to be Free in a Society Where Others are Oppressed?, and Writing an Effective Argument via Romeo & Juliet and Supplemental Readings. Great job, go Hawks!

Seacoast

On May 9th, SeaCoast staff members Ms. Brandwein-Fryar and Mr. Flynn and SeaCoast students Mira Caraballo and Danny Reyes attended a site visit to Boston Day and Evening Academy to review their course structures, competency-based learning procedures, trauma-sensitive educational practices and restorative practices for discipline issues.

The SeaCoast community would like to congratulate Brandon Marchetti, Danny Reyes, Jenna Tenaglia, Mira Caraballo, and Anthony DeVito on their "Students Choice, Voice, and Contributions" presentation anchored by our Yondr pilot, which provides students a choice of safely storing their electronic devices during class-time at the district's showcase on May 9th. Thank you Mr. David and Ms. Bradley for mentoring our student-leaders and preparing them for their presentation.

Susan B. Anthony

Thanks to the work of the SBA counselors Ashley Waterberg, Robyn Landry & Kerry Gallucci, this week eight ELL students began participating in a support group facilitated by two therapists from North Suffolk Mental Health. The group is an opportunity for students to discuss their shared experiences of moving to a new country and the challenges that can accompany this big change. The students enjoyed the first group and are looking forward to continuing the conversation.

Whelan

Whelan School students and teachers were very excited to participate in our district's Showcase on Wednesday, May 9th. Fifth graders and their science teachers shared their design journey and progress using Project Lead the Way. Our EL students shared their work with Adobe Spark to model their speaking progress in Ms. Cullity's class. Our Kindergartener projects on recycling/reusing materials demonstrated how important home-school collaboration is with their family projects and writing at school about their projects. Our 4th and 5th grade students were excited to finish their Math MCAS this week! Third grade is looking forward to MCAS next week!
